Election/Restriction

1. Applicant's election without traverse of Group I in Paper No. 11 is acknowledged.

Claim Rejections - 35 U.S.C. § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by (Weber et al's publication "Giant Birefringement Optics in Multilayer Polymers Mirrors" or Jonza et al '894 or Daecher et al. (Weber et al's publication "Giant Birefringement Optics in Multilayer Polymers Mirrors" or Jonza et al '894 or Daecher et al) discloses a decorative outer covering. The covering comprises a light diffractive, birefringement and color altering plastic film.

Allowable Subject Matter

4. Claims 3-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. None of the prior art alone or in combination teaches or fairly suggest applicant's invention. Particularly, a candle including an outer decorative covering having a light diffractive, birefringement and color altering plastic film **adhered to a candle or candle holder..**

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sapper discloses a three layered candled similar to applicant's invention.

Asakura et al discloses a light diffractive, birefringement and color altering plastic film.
